

All is saint

X-left to die

Behind your dreams you're hiding
And you're waiting for the grace
You damage your life and slightly
You believe that all is saint

Don't believe the anybody
They can only lie
I'm waiting for all your gods
Please believe, they can fly
And all is saint in me

Wait! Please believe all is saint
And your god is true
Wait for the amazing grace
And believe in me

You always love drugs and sex
But the bitch want to fuck with your brain
Using your friends, alcohol and
play with your cocain

But i'm with your girl in big party
And i'm wating for my drink
Now believe in everybody
They'll say to heaven
And all is saint in me

Wait! Please believe all is saint
And your god is true
Wait for the amazing grace
And believe in me

You believe in shit
You are sick and blind
I fucked your girlfriend
I've got her life
Take your pray
Out of me
Thank you fucker
Now get out me

Wait! Please believe all is saint
And your god is true
Wait for the amazing grace
And believe in me

You believe in shit
You are sick and blind
I fucked your girlfriend
I've got her life
I want to fuck her
All is saint!
