

Everyone Loves

X-left to die

Every girl wants to own the boy
when you make a big fall
They love another...
And every boy wants to own the girl
but after nice times come tears and
hearts bleed..

But everyone loves...
And I can not stop loving you, I'm sorry
Baby it's over...
and I can't hate I'm missing you, I'm sorry

Love's like a sweet air but I can not breathe
My lungs disappear after you've decided
to leave me...
What's going on when every day I'm alone
but one day I will be strong
and I'll fuck it you...

But everyone loves...
And I can not stop loving you, I'm sorry
Baby it's over...
and I can't hate I'm missing you, I'm sorry

I fall through the time
how can I feel this moment?

And every boy wants to own the girl
but after nice times come tears and
hearts bleed..
Come on...go!
We've got a lot of time, we living music, I know it's over...
We gonna take this way when all are ready to decay in feelings..

I love you, I fucking love you, I love you
I love you!
