

Hungry Wolf

X

I am the hungry wolf and run endlessly with my mate
i see the gutter feed on the foolish
outrun and kill the strong
at daybreak i roam awake to who follows me
i roam i roam
i am the hungry wolf and run endlessly with my mate
welcome to the dripping jaws
the alter of your death
at daybreak i roam ready to tear up the world
i roam i roam
the hungry wolf stares from the hill
at the villagers around the fire
she loves her mate as he loves her
and they live together for life
i am the hungry wolf and run endlessly with my mate look
across the street, my friend
we're waiting for you to slow down
at daybreak i roam eyes in the back of my head
i roam i roam
