

Someone's Watching

X

Please talk to me the way you did
When it was summer
Grass has turned from brown to green months ago
Hang your heart on the heart of a deer
Shoot it from a distance
Love doesn't fly with the wave of her hand like it used to
Hail the size of marbles fly
Flood in Texas
We sing a song and get gone night long
To a heart broken melody
You got a letter, so did I
Didn't say who and it didn't say why
Talkin' on the phone or in the street

You get the feelin' someone's watchin' me
Someone's watchin' you. Someone's watchin' me
Someone's watchin' you. Someone's watchin' me
Someone's watchin' me

Maybe as soon as early next year
We could lose our bodies
For the greatest national fighting machine
Stands the winner
We merely scrambled words up, the last official letter
You got a letter, so did I
Didn't say who and it didn't say why
Every minute of every day
You better watch out what you say

Well, someone's watchin' you. Someone's watchin' me
Someone's watchin' you. Someone's watchin' me
Someone's watchin' me. Someone's watchin' me
