

Strange Life

X

Wind up a top
It spins 'til it drops
It spins fast
Hit the gas
That's me falling
That's my calling

It's been a strange day
A strange night
Strange day
Strange life

I'm going where you didn't go
Where you couldn't or wouldn't go
All that you would never know
Where the plastic flowers grow
Where the wooden crosses go
On the side of the road

It's been a strange day
A strange night
A strange day
Strange life

Over and over overkill
Hazard lights standing still
Green light on a window sill
Mile marker sixty-seven
Light at the end of the tunnel vision
Avoid collision

It's been a strange day
A strange night
Strange day
Strange life
Strange day
Strange night
Strange day
Strange life
