

Struggle

X

A, E, I, O, U
You, you, you and you
When are you coming back?
I try to face the facts
We promise not to feel and then we do

A, B, C, D, E, F, G
Me and me, me and me
All of the love notes
You said you sent and said you wrote
Are locked inside of me
I try to sing 'em free, but I don't have the key

The struggle is so real
The struggle is surreal
Just a dream from the other side
Keep your hands inside the ride
The struggle is surreal

W, X, Y, Z
You and me, you and me
Uphill cries and heavy sighs
Wine stained lips
And tear-stained eyes
The minus times and short goodbyes

The struggle is so real
The struggle is surreal
Dream from the other side
Keep your hands inside the ride
The struggle is surreal

The struggle is surreal, the struggle is surreal
Dream from the other side
The struggle is surreal, the struggle is surreal
Dream from the other side
The struggle is surreal, the struggle is surreal
You can dream from the other side
