

Complex

Xana

You look so pretty on your knees
Saying "please", like a good girl
Baby come with me, show ya things
It's bad world
Play your cards right and I could take you to my paradise
Don't that sound nice?
I put on a pretty show
A demon taught me what I know
And I could see it in her eyes
I got this angel hypnotized
Said she loves that thing I do
With my tongue while I'm inside
(What a sight)
You got me with my worst intentions

Look at me now
I only ever fuck with myself
You love it when I'm bringing you hell
Oh baby, I'm what you exist for
Careful what you wish for now
Looking up at me like "oh wow!"
One night with me and she's making vows
I'm nothing like the rest babe
Feeding my complex
Feeding my complex
You're feeding my complex
Feeding my complex
I'm nothing like the rest babe
You're feeding my complex

She was calling my name like "Jesus Christ"
Better watch that pretty mouth
You're rolling the devils dice
Got my hand around her throat
But I'm rolling my eyes
Guess you never know a blessing in disguise
Well I heard she fell from heaven
Yeah, I heard it felt nice
'Cause my baby found my garden
Now she'd like to hit it twice
She put up a pretty bargain
But it's time to pay the price
You got me with my worst intensions

Acting like a bottom just to switch it up and top 'em
They been putting me up on a throne, a pedestal
And then I drop 'em
All she does is think of my face when she's coming
She's coming

Look at me now
I only ever fuck with myself
You love it when I'm bringing you hell
Oh baby, I'm what you exist for
Careful what you wish for now
Looking up at me like "oh wow!"
One night with me and she's making vows

I'm nothing like the rest babe
Feeding my complex
Feeding my complex
You're feeding my complex
Feeding my complex
I'm nothing like the rest babe

I know you wanna die together
I know you want this forever
I know you want hand holding in the park
Rough fucking in the dark
Pedal to the metal of your heart
I know you wanna die together
'Cause you could be with me forever
Be careful what you wish for
'Cause I'm the girl you'd kill for

Look at me now
I only ever fuck with myself
You love it when I'm bringing you hell
Baby, I'm what you exist for
Careful what you wish for now
Looking up at me like "oh wow!"
One night with me and she's making vows
I'm nothing like the rest babe
You're feeding my complex
Feeding my complex
You're feeding my complex
Feeding my complex
Feeding my complex
Feeding my complex
I know you wanna die together
I know you want this forever
I know you want hand holding in the park
Rough fucking in the dark
Pedal to the metal of your heart
I know you wanna die together
'Cause you could be with me forever
Be careful what you wish for
'Cause I'm the girl you'd kill for
