

# Cupid

Xana

It's like coming up for air  
I've spent a long time breathing under waters meant for drinking  
And I wanna see you there  
When I'm rolling over in the morning catching sunlight under covers  
I know it ain't always fair and the nights are getting longer  
I've seen love in every color but I never felt this  
I wanna thank the gods for it  
Don't know if they exist  
But if all that is true I know they built me just for you  
Just for you  
Just for you

You got me shaking now  
Cupid didn't know what he was making baby  
I am freaking out  
Loving something that can be taken from me  
You got me shaking now  
Cupid didn't know what he was doing to me  
Match made in heaven now  
Loving something that can be taken from me  
Don't let it be taken from me  
Don't let it be taken from me

Hello

You're putting your fist through a thick sheet of glass  
Babe, I know you don't want to  
I know it's not like that  
I know it's not like that  
Fuck, I won't be a fool for you  
Some things I just refuse to do  
Lover be holy  
Touching me slowly  
I've been drowning in the shower tryna wash out the stain  
I wanna be clean when you say my name  
It might take longer than we have  
Could you live with that?  
I wish there were some things that I could change  
I wish there were some things that I could change

You got me shaking now  
Cupid didn't know what he was making, baby  
I am freakin' out  
Loving something that can be taken from me  
You got me shaking now  
Cupid didn't know what he was doing to me  
Match made in heaven now  
Loving something that can be taken from me  
Don't let it be taken from me  
Don't let it be taken from me  
Don't let it be taken from me

Darling, I know that you called  
Said you got the wrong number  
Don't think for a second I was ever wrong for you  
I fell awake to the glimpse of your wonder  
I rode the sunset of my reckless lover

Hope we can have our happily after  
Cause baby, your laughter  
Its not the same when you're not at the front of my car  
And I'd wait forever, wherever you are  
But time is ticking faster when I am looking back  
Would you be the best I ever had?  
'Cause how many can say that I loved them forever  
One, maybe two, and I never get better  
It all makes me wonder if I'm a mistake  
One I hope that you will always make  
One I hope that you will always make

It ain't always fair  
And I'm not ready  
It ain't always fair  
And I'm not ready  
It ain't always fair  
And I'm not ready  
I'm not ready  
It might take longer than we have  
Could you live with that?  
Could you live with that?  
Would you be the best I've ever had?  
The best I've ever had

Goodbye
