

Once More, With Feeling!

Xana

Once more with feeling
Maybe this time you'll mean it
And you won't let me down
End the night in walking out
Once more with feeling

All I ever did was hold you like a little kid
You leave me in the cold then wonder why I'm freezing
And I could go months with no from word from you
But you get mad if I don't come through
You missed another birthday
Another wish wasted on my candles
I know what they're gonna say
You woulda shown up if you gave a damn
But I keep hoping, keep praying to god
Maybe you'll wake up and know what you want
And if I'm good, if I'm lucky enough
You'll love me again

We'll do it once more with feeling
Your last chance, no take backs
If you don't choose me now
I'll end the night in walking out
Once more with feeling
