

Push

Xavier Rudd

We're gonna raise the vibe
Take the hand of another and fly
We're gonna stand up tall
Give thanks to the mother of us all

We're gonna heal with time
And hold each other on the climb
We're gonna keep up the fight
Stand up against oppression and divide
We're gonna lift up the roof
So put your hands up and everybody push

The summertime has come and gone
Dig down deep and through the winter you will grow

Stand up as one, be together
Hold on, hold on, hold each other
Stand up as one, be together
Hold on, hold on, hold each other

We're gonna raise our kids to see
That the picture isn't always what it seems
And you will definitely walk through the fire
How well you do it will be what defines ya

And we will heal with time
And hold each other on the climb
We're gonna keep up the fight
Stand up against oppression and divide
We're gonna lift up the roof
So put your hands up and everybody push

The summertime has come and gone
Dig down deep and through the winter you will grow

(We're gonna raise the vibe)
Stand up as one, be together
(Take the hand of another and fly)
Hold on, hold on, hold each other
(We're gonna stand up tall)
Stand up as one, be together
(Give thanks to the mother of us all)
Hold on, hold on, hold each other
(And we will heal with time)
Stand up as one, be together
(And hold each other on the climb)
Hold on, hold on, hold each other
(We're gonna keep up this fight)
Stand up as one, be together
(Stand up against oppression and divide)
Hold on, hold on, hold each other

(We're gonna raise the vibe)
Stand up as one, be together
Hold on, hold on, hold each other
(We're gonna keep up the vibe)
Stand up as one, be together

Hold on, hold on, hold each other
