

Twist

Xavier Rudd

Everybody gonna paid a lot
To get any kind of weather, 'cause everybody's okay
Everybody gonna kick back together
Speak about each other, 'cause everybody's okay

Some people gonna twist up together
Help to feel you better, 'cause everybody's okay

From looking far and wide, I can see you're okay
When there's people all around, just such a fuss and shade
And a little bit to food just to see the next day

'Cause the fields are dried up and the mummy never came
Can you sing to your Creator, give tobacco to a tree
Or some flowers to your mother, 'cause she gave you what you need?

Everybody, can you lay back together
Star gaze together, 'cause everybody's okay?
You know your children don't help you feel better
If your close to each other, 'cause everybody's okay

From looking far and wide, I can see you're okay
When there's people all around, just such a fuss and shade
And a little bit of food just to see the next day

'Cause the fields are dried up and the mummy never came
Can you sing to your Creator, give tobacco to tree
Or some flowers to your mother, 'cause she gave you what you need?

Everybody can you sway to the music
Let the spirit choose you 'cause everybody's feeling okay?
So everybody can you sway to the music
Let the spirit choose you 'cause everybody's feeling okay?

Everybody can you sway to the music
Let the spirit choose you 'cause everybody's feeling okay?
So everybody can you sway to the music
Let the spirit choose you 'cause everybody's feeling okay?

Said everybody can you sway to the music
Let the spirit choose you 'cause everybody's feeling okay?
Said everybody can you sway to the music
Let the spirit choose you 'cause everybody's feeling okay?
