

# BackAndForth

Xavier Wulf

We're dancing in the moonlight  
While the stars burn bright for the night  
I think I'll be alright  
I won't do you wrong if you do me right  
I'll be at the campsite  
I'll watch the fire flame reflect from through her eye  
I'll think we'll be all right  
We can settle here until the sunlight strikes

Back and forth  
Back and forth  
We can't be like this forever  
We can't be like this forever  
Back and forth  
Back and forth  
We can't be like this forever  
We can't be like this forever

Back forth, we're going back forth  
Play games with my heart, thee ball's in your court  
Remember way back, your very first crush  
You took me for a ride, you made my blood rush  
You got all my trust, you never lied once  
I think about you, from dawn until dusk  
I hope you stay close, until we're both dust  
Girl, whenever you call, I'll be there in a rush

Back and forth  
Back and forth  
We can't be like this forever  
We can't be like this forever  
Back and forth  
Back and forth  
We can't be like this forever  
We can't be like this forever
