

## Beyond The Clouds

Xavier Wulf

You see me smiling with my niggas  
We go hard on the mission  
These niggas say they smoking woods but the just copping Swishe  
rs  
She say she can't hit the wood cause the smoke come too thicker  
I almost put her ass out  
She said "jk", she so silly  
Run up on me like I lack I bring his funeral quicker  
I switch back like never before  
I cut him off then I'm dipping  
Who the fuck he think he gripping his bitch still wanna kick it  
I'm in Cali with a mixture of the girls a lil bigger  
If she exotic than she got that's the topic my nigga  
Add a hundred more points for a natural figure  
She looked up at me and said hold up I'm rollin one with ya  
I said okay that's on the way  
I get as high as can get with her  
Pull off with my boys I give no fuck bout who pulling up  
See me sailing to the shore I'm shading shining for all of us  
Hollow Squad the coffin fleet will never be crumbled up  
See me smoking uninterrupted I'm posted up high as fuck  
M - E - M - P - H - I - S  
No rest when I hit the deck  
They think I'm Tom Hanks  
I cast away when I hit the spliff  
Jack Wulf Sparrow that's my name when I hit the ship  
I pull off from the shore heading straight for whoever next
