

## Dark Destruction

Xavier Wulf

They think that it's a game  
Where is pleasure there is pain  
I know I'm off the chain  
Cause I can't stand it, mane

The side From where I reside  
You can never hide  
And the ride that I'll be inside  
You can never drive  
The road that I call my life  
It cuts off at night  
So I'll fight to avoid the bite  
Killing is alright

So I might just pick up a knife  
Or better the rifle and strike you  
Cause I don't like you  
So you'll die fool  
And yes it is very early  
But I'm swerving  
And certainly  
I'll be working, P  
Getting every dime that I feel is worth to me  
I'm getting every dime that I feel is worth to me

The side from where I reside  
You can never hide  
And the ride that I'll be inside  
You can never drive  
The road that I call my life  
It gets black at night  
So I'll fight to avoid the bite  
Killing is alright

The side from where I reside  
You can never hide  
And the ride that I'll be inside  
You can never drive  
The road that I call my life  
It gets black at night  
So I'll fight to avoid the bite  
Killing is alright

I'm working for my life  
But I know I'm not alright  
The black inside my blood  
Let's me transform at night  
The side from where I reside  
Be the darkest side  
Ain't no point in even having eyes  
You'll never see the light  
Your questions are so informal  
I ain't normal  
But harmful  
If you choose to set off my alarm, fool  
I'm hellish but I won't help it  
I won't feel it. You fell, trick

Into a hell pit  
And I run this

The side from where I reside  
You can never hide  
And the ride that I'll be inside  
You can never drive  
The road that I call my life  
It gets black at night  
So I'll fight to avoid the bite  
Killing is alright

The side from where I reside  
You can never hide  
And the ride that I'll be inside  
You can never drive  
The road that I call my life  
It gets black at night  
So I'll fight to avoid the bite  
Killing is alright
