

Did You Hear? The Roads Are Closed

Xavier Wulf

Ay, ice

(What?)

I'm still stone cold froze

(I'm still stone cold froze)

I'm still stone cold cold

(I'm still stone cold cold)

All my ice is on em, still ice stone cold ay

All my ice is on em, still ice stone cold ay

All my ice is on em, still ice stone froze

It's summertime she still think I'm ice stone cold ay

All my ice is on em, still ice stone cold ay

All my ice is on em, still ice stone cold ay

All my ice is on em, still stone cold froze

It's summertime she still think I'm ice stone cold ay

Bitch we drop the weather make it go go go

You say that they fuck with you, they don't know know

Anytime we wanna do

We do everything we wanna do

We we make the roads a lil icier

They slide while we ride smoke straight in the air

We we make the roads a lil icier

They slide while we ride smoke straight in the air yeah
