

# Earth

Xavier Wulf

The moon won't glow here  
The wind won't blow here  
I don't wanna be here  
The sun won't shine here  
The earth won't twine here  
The rain won't fall here  
I don't wanna be here  
I can't leave here  
The clouds won't come here  
The snow doesn't fall here  
The ice doesn't freeze here  
The moon won't show here  
The water doesn't flow here  
The sun won't glow here  
I don't wanna be here  
I don't wanna be here  
But I can't leave here

Sitting in a dark room  
Wondering where you are  
Longing for your touch  
I hope I see you soon  
Even if you're gone for a minute, you know I still feel it, that  
feeling that I miss you  
And every time that you cry, I just wanna die  
I can't believe that I hurt you  
I don't like who I see  
When I look into the mirror, when I look into the mirror  
I don't like just who I see, I know just what I feel...
