

Still Will

Xavier Wulf

Okay I pull up with my niggas and them
I'm chilling smoking reef with him
Sipping on this liquor
I move quicker when I come for him
I cant give a fuck about none of these bitches
I don't bother them
He think that he smarter
I go harder when I'm on the fence
Put him on his ass
Then I dash
I do not repent
I collect the cash
Then I split it with the fam and them
He think cause he buff, he tough
I spazz and then I damage him
I don't give a fuck
I make him crash then I'm through with him
See me riding clean
On the scene to the car event
I was ditching class smoking gas with my brother since
9th grade with a boosie fade I was killing shit
Man I really miss him
Till he get out Ima flex for him
See me doing better
Than whoever who you playing with
I came straight from Memphis
With intent to come and murder shit
I won't give a fuck until the end
I'm for real bitch
Niggas want to hate until you make it
That's some real shit
That's why I be throwing up the finger when I spill shit
I don't give a fuck about who he was or who he deal with
Leave it up to me I will decline every deal bitch
Niggas mad as fuck because I'm up I clear the field bitch
