Suffer

Xavier Wulf

SESH never gave a fuck, robbing the system up
Bass in the trunk is thumping
No one compare to us, nobody's harder
Bitch, all we make is progress
Every single year, we're dropping
We make a mess and you mop it
SESHOLLOWATERBOYZ, nobody topping
People they talkin', yeah, we be the topic

Okay, okay, okay, okay, okay
I can never be the one done up
I can never be an easy come up for none of you lil suckers
They know better than try to run us
I'll bring a motherfuckin' ruckus to all you motherfuckers
I don't give a fuck about no other
Only to the fam and my brothers, the rest of you can suffer

All the stars look the same from a distance
Get too close and just know
You might be disappointed at the difference
