

## Walking Wulf

Xavier Wulf

I smoke when I wake up and I don't think about it  
He want to test my power I wouldn't think about it  
Will I let him live? let me think about it  
I got my blade on my back I don't want do without it  
But don't think that's a weakness I still do without it  
I swing like Titan Jaeger hope no people round me  
I'm sitting on my roof eating weed brownies  
To you fools that think I'm lame I let the squad surround ya  
Scared to damn death is how the people found him  
Mosh pit man make the club rattle  
The club owner scared cause we ride now  
We had peace before but we bring violence now  
Disrespect me and you get cut down  
I ain't cool no more I will leave you stressed out  
My blood froze from the sheer cold now  
And these tears burn my face while they fall down
