

Home

Xenia

I've walked so far, so far
To be where you are
Don't mind the scars, the scars
That kept us apart
A thousand miles oh I'd go
Across the deadly sea
We don't need anybody
But you and me

I've known my days without you
I've seen myself alone
There's no one else beside you
I'd wanna call my home

I've tried so hard, so hard
I won't let you down
Thrown in my heart, my heart
You've stolen the crown
Anywhere you are I'll go
Follow you into the dust
We don't need anybody
To fight for us

I've known my days without you
I've seen myself alone
There's no one else beside you
I'd wanna call my home

My hand is yours forever
What more do you need
I'd cross a burning desert
Just to follow follow your feet

I've known my days without you
I've seen myself alone
There's no one else beside you
I'd wanna call my home

I've known my days without you
I've seen myself alone
There's no one else beside you
I'd wanna call my home
