

Kill And Protect

Xentrix

Warhead of snake, sentient counter threat
The mission goal is search and detect
Out to defend, to serve and intercept
Reverse the snack attack, fire and forget
Chasing down the lead, venom at sonic speed
Changing course for all it's worth
A hunter 'til the end, a twist and turn again
Lock to growl collision set

Fire and forget
Set the drop loose
Kill and protect
Dominion peace keeper
Serpent like, one strike heat seeker
Fast serpentine, imperious in flight
The saving angel, close in and strike

Suppress and end it, the battle angels scream
Into the shadow, collide and connect
Satan w2 deployed, destined to destroy
Demon reaper in the sky
Locked in for the kill the fox 2 death of steel
Martyr with no will to survive

Fire and forget
Set the drop loose
Kill and protect
Dominion peace keeper
Serpent like, one strike heat seeker

Fire and forget
Set the drop loose
Kill and protect
Dominion peace keeper
Serpent like, one strike heat seeker
