

# My War

Xentrix

Constant circular turn of decay  
Just immersed the predictable way  
Eve the distant full revolution  
Beginning some more  
I can clearly now as ever before

Constantly in between  
The underrated invincible  
Half way to the back again  
Back for some more, back to demeaning  
There's a new beginning at the next revolution  
But I know that I've sent it before  
I'm on a constant trip into the next resolution  
And it feels like I've been here before  
Forever restarting my war

Wheels in motion but all never done  
Constant cycle of back to square one  
Ever persistent fall for delusion is hard to ignore  
Treading the wheel like a rat but I'm ready for more

Constantly in between

The underrated invincible  
Half way to the back again  
Back for some more, back to demeaning

There's a new beginning at the next revolution  
But I know that I've sent it before  
I'm on a constant trip into the next resolution  
And it feels like I've been here before  
Forever restarting my war

There's a new beginning at the next revolution  
But I know that I've sent it before  
I'm on a constant trip into the next resolution  
And it feels like I've been here before  
Forever restarting my war  
Forever restarting my war  
Feels like I've seen it before  
And it feels like I've been here before  
Forever restarting my war
