

GRL GVNG

XG

Yeah, ayy, ayy

A band of hittas, we a different kind of party
The type of crew don't gotta answer to nobody
You mess around with us, I promise you'll be sorry
Trust me, trust me, that'd be a big mistake

We go hard everyday (We go, we go hard)
Me and my girls ain't here to play (We ain't here to play)
If you ain't tough, can't join the club (Can't join the club)
Yeah, we only got room for the baddest (Baddest)
Made of winners, my team go ham with it

Don't you let these pretty faces fool you
Savage underneath (Yeah, we're so savage)
There's no limit, nothing that we can't do
Whatever the problem
We know how to solve 'em (Yeah, yeah)

Work flow, hustle game
Never pick fights with a girl gang
All of my ladies are fire
Rolling with queens, it's a female empire
Work flow, hustle game
Never pick fights with a girl gang
All of my ladies are fire
Rolling with queens, it's a female empire

Bow down
Get back
Head down
Get stacks

Bet you can't match these stats
Try to catch up, we stay one step ahead
Bet you can't rack up these checks
Give it a shot but you'll end up finessed

Boom, ha
Confident chicks with a whole new swagger
Boom, ha
Level so high gonna need that ladder
We got something extra hot
Yummy, yummy out the pot
Rolling deep when we in town
You ain't know, you're learning now

They say, "you so fly, oh my god"
Crew so tight, they know we on lock
Drip so cold we're styling like ice
Crew so bold, we stupid on sight

Don't you let these pretty faces fool you
Savage underneath (Underneath)
There's no limit, nothing that we can't do (Nothing we can't do it)
Whatever the problem
We know how to solve 'em (Do it, do it)
