

HYPNOTIZE

XG

Hey
You're running from what you can't escape
Come my way
I'll put you under some kind of state
Astray

So watch me hypnotize
You with my eyes
Make you fantasize
'Bout me tonight

I'm hypnotizing
Hypnotizing
Side to side, got you hypnotized
'Cause every time my clock tick-tock like this
Every little spell I cast don't miss
Always on top, top, top, I'm hypnotizing
Gotcha doing what I want, want, want all night
Wake up to the click of sound
Follow with your eyes
Watch me, watch me hypnotize

You'll be where I want you every night
You'll be back to feed your appetite
Swirling hypno disc illusion
My command becomes your reason

In your consciousness
Now your mind is of no consequence
I betcha never seen a girl so confident
Cut the compliments
That's just common sense

So watch me hypnotize
You with my eyes
Make you fantasize
'Bout me tonight

I'm hypnotizing
Hypnotizing
Side to side, got you hypnotized
'Cause every time my clock tick-tock like this
Every little spell I cast don't miss
Always on top, top, top, I'm hypnotizing
Gotcha doing what I want, want, want all night
Wake up to the click of sound
Follow with your eyes
Watch me, watch me hypnotize

When you fall asleep
What do you see?
I know it's me
Dreams (Make you fantasize)
When you're fast asleep ('Bout me tonight)
It's all we have

You wake and stare like you're lost in the room

Too late, too bad, boy, you know what to do

Now you playing my game
I'll keep you doing my favors
Side to side, got you hypnotized

'Cause every time my clock tick-tock like this (Every time we kiss)
Every little spell I cast don't miss
Always on top, top, top, I'm hypnotizing (I'm hypnotizing)
Gotcha doing what I want, want, want all night (Ah, yeah)
Wake up to the click of sound (All right)
Follow with your eyes
Watch me, watch me hypnotize
