I put off the light, watch me ri-i-i-ide  
Blowin' off his top, we gettin' ho-o-o-ot  
Backseat of the range (Range), we just might pull over  
XG, light a flame (Flame), you known it's over  
Left, right, or forward  
And you know I got 'em, six feet and flooring, fast lane  
Body fire like propane, blow it up, it's your birthday  
Ten to one, poppin' bottles, got no shame  
Switchin' sides, locked in  
Flashy like a diamond shinin' in the sky  
Pull up in that coup, are you down to ride?  
Down, down, are you down, down?  
Baby, are you down?  
Down, down, are you down, down?  
Pop that body, left, right

I got what you want, I got what you need (Uh-huh)  
Mobbin' like we don't follow anything (Oh)  
Left, right, get it on the floor  
I wanna see you left, right get in my zone, ha  
Then we hit the slide ready for the swing (Uh-huh)  
We don't want no opps, want no drama queen (Oh)  
Left, right, everywhere we go  
We pull up from the left, right, postin' up slow

I'm on one, got drip  
Whip the ride, I'm switchin' lanes like this  
Spinnin' out, then flip  
Cruisin' down like we be on a trip

Oh, the only direction I know

Want your body swervin' left, right, left, right  
I want your body movin' left, right, left, right  
You keep me up, my heart is beatin' up and down  
Spinnin' 'round and 'round ('Round and 'round)  
Just like my Pirellis burnin' on the ground  
If you're down with me, then let's ride, let's ride  
Can't nobody stop it, that's right, that's right  
And my adrenaline is racin' up and down  
Spinnin' 'round and 'round ('Round and 'round)  
Hit the pedal to the ground, listen to the sound

So just tell me if you are worth it  
Worth it, really wanna know (Worth it)  
I'll flip it and reverse it, sing it real low

Hold up, hold up  
We goin' out, mixin' up these rides  
Don't ask me if you don't know why  
I hit the switch, hear the noise inside  
Baby, say no more (Say no more)
