

LEFT RIGHT (Y2K Version)

XG

I got what you want, I got what you need
Mobbin' like we don't follow anything
Oh, left, right, get it on the floor
I wanna see you
Left, right, get in my zone, uhm

Then we hit the slide, ready for the swing
We don't want no opps, want no drama queen
Oh, left, right, everywhere we go
We pull up from the
Left, right, postin' up slow

I'm on one, got drip
Whip the ride, I'm switchin' lanes like this
Spinnin' out then flip
Cruising down, like we be on a trip

Boy, just follow my flow
Don't matter where we go
Oh, the only direction I know

Want your body swervin' left, right, left, right
I want your body movin' left, right, left, right
You keep me up, my heart is
Beating up and down, spinnin' 'round and 'round
Just like my Pirelli's burning on the ground

If you're down with me, then let's ride, let's ride
Can't nobody stop it, that's right, that's right
And my adrenaline is
Racing up and down, spinnin' 'round and 'round
Hit the pedal to the ground, listen to the sound (Listen to the sound)

Now we on to something, drop the fit, we killed it
Don't we all deserve it? I'll tell you how we want it
Oh, left, right, you been here before
So do it till you get right
Get it one more

No, you can't deny it
Baby, don't you hide it
If I like it, I'll bite it
So just tell me if you're worth it

Worth it, really wanna know
I'll flip it and reverse it
Sing it real low

Hold up, hold up
We going out, mixing up these rides
Don't ask me if you don't know why
I hit the switch, hear the noise inside
Baby, say no more, say no more

Boy, just follow my flow
Don't matter where we go
Oh, the only direction I know

Want your body swervin' left, right, left, right
I want your body movin' left, right, left, right
You keep me up, my heart is
Beating up and down, spinnin' 'round and 'round
Just like my Pirelli's burning on the ground

If you're down with me, then let's ride, let's ride
Can't nobody stop it, that's right, that's right
And my adrenaline is
Racing up and down, spinnin' 'round and 'round
Hit the pedal to the ground, listen to the sound
Listen to the sound

This is the right time, so come get it
You know that I'll be there for you
Down, down, if you're down, down
Baby, are you
Down, down? Are you down, down?

Let me take you to the other side
XG, we certified
Alpha, Alpha, we gon' ride or die
Into the galaxy, you know the vibes
Down, down, if you're down, down
Tell me if you're down
Down, down, are you down, down?

Want your body swervin' left, right, left, right
I want your body movin' left, right, left, right
You keep me up, my heart is
Beating up and down, spinnin' 'round and 'round
Just like my Pirelli's burning on the ground

If you're down with me, then let's ride, let's ride
Can't nobody stop it, that's right, that's right
And my adrenaline is
Racing up and down, spinnin' 'round and 'round
Hit the pedal to the ground, listen to the sound
Listen to the sound

Left, right, left, right
Left, right, left, right
