

SOMETHING AIN'T RIGHT

XG

Something ain't right
You been acting funny lately
You ain't gotta lie
Got me out here looking crazy
Whatcha tryna hide
Baby I can't take it
You can't fake it
Something ain't right
I know something ain't right

I feel you creeping
I don't need to be right there boy
The way you moving
Things you doing
Just ain't fair boy
Now every time I call your name
The way you answer ain't the same
Yeah I figured you out boy

Why do you really think that you're the one
Who could be running game over me
Why are you standing there playing dumb
When I, I know

Something ain't right
You been acting funny lately
You ain't gotta lie
Got me out here looking crazy
Whatcha tryna hide
Baby I can't take it
You can't fake it
Something ain't right
I know something ain't right
Something ain't right
Something, some...something, some
Something ain't right
Something, some...some, some
Something ain't right
Something, some...something
Something ain't right
I know something ain't right

Boy I put you in the spotlight
You can tell me what you want but it's all lies
Knock knock who's there
It's your whole life
I don't do three strikes only one time
X O love me good
Read you like an open book
Test me I wish you would
You must be crazy

Why do you really think that you're the one
Who could be running game over me
Why are you standing there playing dumb
When I, I know

Something ain't right
You been acting funny lately
You ain't gotta lie
Got me out here looking crazy
Whatcha tryna hide
Baby I can't take it
You can't fake it
Something ain't right
I know something ain't right
Something ain't right
Something, some...something, some
Something ain't right
Something, some...some, some
Something ain't right
Something, some...something, some
Something ain't right
I know something ain't right

What goes around comes back around
Look at me in my eyes
Baby can you tell me why your tongue all tied
You can drop all the acts my baby
Boy this time you ain't gonna make it
I can tell you a million times
Something ain't...
Something ain't...

Something ain't right
You been acting funny lately
You ain't gotta lie
Got me out here looking crazy
Whatcha tryna hide
Baby I can't take it
You can't fake it
Something ain't right
I know something ain't right
Something ain't right
Something, some...something, some
Something ain't right
Something, some...some, some
Something ain't right
Something, some...something, some
Something ain't right
I know something ain't right
