

TAKE MY BREATH

XG

My fever's high
Like summer nights
All the faces in the light
My sun don't shine
Without you I
Would be lost but now that I found you
Mind you

If you want it
Come and take it
I'll share my secret
I know you'll like it
You should hurry
Don't keep me waiting
You got me out my mind
In the twilight, yeah

Tick and tock, I'm running out of patience
'Round the clock, don't stop before we're out of time (We out of line)
We on a vibe (Feel so alive)

So take my breath away
Come take my breath (Come take my breath)
Take my breath away
Come take my breath (Take my breath)
Just take my breath away
Take my breath (Come take my breath)
Take my breath away
I can't believe it

Way that we breathing got my heart beat-beating like
Breathe in, breathe out
We can't stop, oh, na-na-na
Skip the talk, blah-blah-blah-blah
I just can't hide, I love this feeling

Breathe in, breathe out
We can't stop, oh, na-na-na
Skip the talk, blah-blah-blah-blah
Come take my breath away

Let me catch a breath for this verse right now
And I'll catch a jet to Berlin right now
Like a Maverick, I've gotta cruise like Tom
Are you really with it? Don't waste my

Come and be my oxygen
Mach 3 speeding over continents
T minus something that's approximate
Pursue you as a target, I'm boxing in
And I'm locking in

If you want it
Come and take it
I'll share my secret
I know you'll like it

Tick and tock, I'm running out of patience
'Round the clock don't stop before we out of time (We out of line)
We on a vibe (Feel so alive)

So take my breath away
Come take my breath (Come take my breath)
Take my breath away
Come take my breath (Take my breath)
Just take my breath away
Take my breath (Come take my breath)
Take my breath away
I can't believe it

Way that we breathing got my heart beat-beating like
Breathe in, breathe out
We can't stop, oh, na-na-na
Skip the talk, blah-blah-blah-blah
I just can't hide, I love this feeling

Breathe in, breathe out
We can't stop, oh, na-na-na
Skip the talk, blah-blah-blah-blah
Come take my breath away

Come take my last breath from now until the end
Death won't do us apart (So be my)
Be my best (Take it)
Step by step
Make me exhale again

So take my breath away
Come take my breath (Come take my breath)
Take my breath away (Won't you come, won't you come?)
Just take my breath away
Take my breath (Take my breath)
Take my breath away (Every lasting breath)
I can't believe it

Way that we breathing got my heart beat-beating like
Breathe in, breathe out
We can't stop, oh, na-na-na
Skip the talk, blah-blah-blah-blah
I just can't hide, I love this feeling

Breathe in, breathe out
We can't stop, oh, na-na-na
Skip the talk, blah-blah-blah-blah
Come take my breath away
