Never sorry (Oh)

Your voice whispered sweetly  
Without my knowing, I'm falling little by little  
It was a happy time, before I knew it was a lie  
Everything seemed perfect

As much as I believed, it's so hard, why  
You're making me lonely  
It's not beautiful (It doesn't matter who)

Not beautiful (You'll play with anyone)  
Mmm (Only seeking me when needed)  
I'll leave you first

Never sorry (Sorry)  
Won't look back twice  
Far, far away, I'll go  
Never sorry  
I don't care about the wounds  
But you, never

Pretending to be close, keep it  
Words spewed out, all meaningless bluffing  
Stop smiling, get lost, I know everything behind my back  
Stop it, really

As much as I believed, it's so hard, why  
You're making me lonely  
It's not beautiful (It doesn't matter who)  
Not beautiful (You'll play with anyone)  
Mmm (Only seeking me when needed)  
I'll leave you first

Never sorry (Sorry)  
Won't look back twice  
Far, far away, I'll go  
Never sorry  
I don't care about the wounds  
But you, never

When time passes and the pain fades little by little  
The child with many dreams dries their tears and becomes an adult  
Shall I forget about yesterday? I'll do as I please from today  
I'll leave you first

Never sorry (Sorry)  
Won't look back twice  
Far, far away, I'll go  
Never sorry (Oh)  
I don't care about the wounds  
But you, never (Never ever)  
Never sorry (I'm never sorry)  
Won't look back twice (I'm never sorry)  
Far, far away, I'll go (No, never sorry)  
Never sorry (Oh)
