As I wish, all day long
Things don't always go my way
But when I'm with you, woah, oh
Walking under the dazzling sunlight
And the blue sky
Anywhere
I go even to that star
Far away

I'm running into the crowd
I'm soaring with my sound
Spreading more, a deep scent in my heart
A brighter rainbow
Catch me with the show, right now
Please, tell me, show me how you know
Just let it go

In this moment
Oh, delight, remember
A prepared wonder time
I wanna make you mine
In this stage
Turning my music every moment
Getting more immersed
Let us savor the days to come
Take me back to blissful showtime

Remember our own
Heyday, heyday, heyday
Spent together
Heyday, heyday, heyday
Open up my shining heart
Just dance, just dance, just dance
Promise us eternity
You're the bliss of my life

Oh, at the start, I'm excited with the first step
We're the brightest in the galaxy XODIAC
Twinkling as we follow the stars
Shining nine lights, illuminating the world, baby
You got me feeling carefree now
I wanna dance some more, continuously
Oh, man, it's like playing with fire
Just one chance, don't let it slip away

I'm running into the crowd
I'm soaring with my sound
Spreading more, a deep scent in my heart
A brighter rainbow
Catch me with the show, right now
Please, tell me, show me how you know

Spent together
Heyday, heyday, heyday
Open up my shining heart
Just dance, just dance, just dance
Promise us eternity
You're the bliss of my life

The evening breeze blowing in
That unchanging blue
Follow me in the sky
Gradually flying
To remain unchanged

Remember our own
Heyday, heyday, heyday
Spent together
Heyday, heyday, heyday
Open up my shining heart
Just dance, just dance, just dance
Promise us eternity
You're the bliss of my life
