

MAGIC

XODIAC

I been around the world but I ain't never seen a girl like you
The rest was just a blur (Ooh, ah, ah)
In the van to the next city and I'm back on that nitty, gritty
Stumbling for words

Every night, I take sight
Ooh, if you're there, somewhere
Because for you I would do anything true
Just to see you one more time (One more time)

Oh, baby, you make me feel funny inside
And baby, can I see you one more time?
Baby, you are magic, yeah, you are magic
Baby, you are magic, all I need is one more time

Stop, we could be in London, let me be your mandem
Having drinks in a pub then, grab a show on the west end
But until then I gotta keep doing shows, hoping you would show up the
n
Who knew that a guy could act so differently all because of a 10

Every night, I take sight
Ooh, if you're there, somewhere
Because for you I would do anything true
Just to see you one more time (One more time)

Oh, baby, you make me feel funny inside
And baby, can I see you one more time?
Baby, you are magic, yeah, you are magic
Baby, you are magic, all I need is one more time
You make me feel funny inside
And baby can I see you one more time
Baby, you are magic, yeah, you are magic
Baby, you are magic, all I need is one more time

I don't wanna think of not seeing you again
And I wanna feel that magic again, again

Oh, baby, you make me feel funny inside
And baby, can I see you one more time?
Baby, you are magic, yeah, you are magic
Baby, you are magic, all I need is one more time

Magic, magic, wanna feel, magic
All I need is one more time
Magic, magic, wanna feel, magic
All I need is one more time
