Xov

Oh, my dear
Somebody told me
My beliefs
Yeah, somebody showed me
Wash me clean
Unlearn everything, thing

I just wanna dance these fears away
Deep into a trance where I can escape
I just wanna dance til better days
Dance these fears away

Let me feel your body close
Close, close
Let me feel your body close
Close, close
Let me feel your body close
Close, close
Let me feel your body close
Close, close

Everything will fade
Into the night
I worry too much, my minds a liar
Everybody falls, sometimes
I wonder why
I wonder why

I just wanna dance these fears away
Deep into a trance where I can stay
I just wanna dance til better days
Dance these fears away

Let me feel your body close
Close, close
Let me feel your body close
Close, close
Let me feel your body close
Close, close
Let me feel your body close
Close, close

I just wanna dance, please
Close
I just wanna dance, please
Close
Bring it closer
Yeah, bring it closer I just wanna dance

Let me feel your body close
Close, close
Let me feel your body close
Close, close
Let me feel your body close
Close, close
Let me feel your body close
Close, close

I just wanna dance...
