

Cocaine Karma

Xov

I am nothing but a fool
Left my family for you
I'm a thief, a cheatin' liar
Cocaine drama, it's back, bad karma, karma

You're my sickness, my health
You know me too well
I run but there's nowhere to hide
Life is a bitch
Just give me my fix
Hit me and bring me to life

You take me to heaven and leave me in hell
Cocaine karma
You take me to heaven and leave me in hell
Cocaine karma
Cocaine Karma

Twenty winters have come and gone
I still know nothing 'bout my only son

You're my sickness, my health
You know me too well
I run but there's nowhere to hide
Life is a bitch
Just give me my fix
Hit me and bring me to life

You take me to heaven and leave me in hell
Cocaine karma
You take me to heaven and leave me in hell
Cocaine karma
Cocaine karma
Cocaine karma

I was high as hell one day walking asleep
Homeless on Stockholm Street
I bumped into a woman and child that looks like me
That's my wife and my son ten years I've been gone
I don't know what to say
So I just look back and smile before I walk away

You're my sickness, my health
You know me too well
I run but there's nowhere to hide
Life is a bitch
Just give me my fix
Hit me and bring me to life

You take me to heaven and leave me in hell
Cocaine karma
You take me to heaven and leave me in hell
Cocaine karma
Cocaine karma
