

Lucifer

Xov

I want him to meet his maker
I used to be a lover, now I'm a hater
My passion to succeed is watching him bleed
Oh lord, what have become of me

Once upon a time I was a fool
To cool for school, gangster cruel
Blood in blood out, pull the trigger, no doubt
Lucky motherfucker you don't know what I'd do to you

I used to kick it with Lucifer
And he still lingers in the dark
Oh, oh Lucifer

The evil within has never been greater
My soul has been seized and he's the dictator
I've been dragged through the mud, I can still taste the blood
Oh lord, what have become of me

Once upon a time I was a fool
To cool for school, gangster cruel
Blood in blood out, pull the trigger, no doubt
Lucky motherfucker you don't know what I'd do to you

I used to kick it with Lucifer
And he still lingers in the dark
Oh, oh Lucifer You better watch out

Sometimes I feel like seeking him down just for the hell of it
Look for his face around town, smack, smack, just a bit
Lucky motherfucker, got away with my cash
I built you up and I'mma tear you down, just like that

Once upon a time I was a fool
To cool for school, gangster cruel
Blood in blood out, pull the trigger, no doubt
Lucky motherfucker you don't know what I'd do to you

I used to kick it with Lucifer
And he still lingers in the dark
Oh, oh Lucifer You better watch out

The devil's been an angel
The devil's been an angel
Even the devil's been an angel
Lucifer

The devil's been an angel
The devil's been an angel
Even the devil's been an angel
Lucifer
