

## Bleed and Shout

XP8

Taking time to carve a line  
Pushing down into your world  
Trying hard to make it mine  
Close your eyes my little girl  
Extracting souls through your spine  
My intrusion, penetrating  
Sucking out all I can find  
Nothing left, desecrating  
Gut wrench, evil stench.  
Tie her down, on to the bench.  
I can make you bleed and shout

I can stop you reaching out  
I can stop you reaching out  
Tying down your shaking hand  
I can make you bleed and shout  
How much pain can you withstand?  
I'm not clean, so obscene.  
Untouched and feeling mean  
Drowning fast n dropping out.  
Plucking wings from pretty things  
Gut wrench, evil stench.  
Tie her down, on to the bench.  
I can make you bleed and shout  
I can stop you reaching out
