

Give it time we all finna shine  
Motorsport drove the Porsche to the finish line  
No pork on my fork when it's dinner time  
Defund the pigs and refund my niggas time  
Finna climb every single chart when I start  
So fly that I screen write it and still get a part  
And we making hits in the dark its a hidden art  
Asking how did we get this far when we been apart?  
I hit the rap game with a flash bang  
No T-Pain feature, no big ass chain  
Get all the money in the world but you lack change  
Chasing cheese only leads to the rap maze  
Why you waiting just to make it on the waiting list?  
How dare you be broke and treat me like the maintenance  
No debating inauguration I'm back in  
These niggas follow fast trends, that's a sad end

Gettin' money from the front to the back end  
Run and bring the bag in 'til the bag end  
Get it goin' ain't no slowin' ain't no laggin'  
Girl we up to no good, bring that ass  
Bring yo' bad friend, bring yo' bad friend  
Bring yo' bad friend, bring yo' bad friend  
Said we up to no good, bring that ass in  
And bring yo bad friend, bring yo bad friend

Y'all out here doing it for the promo  
I'm out here shooting it from the logo  
My crowds cheer like a nigga was bolo  
When I appear shit start movin' in (slow-mo)  
Whoah, everything on the rise raisin' the quota  
Raisin' the flow up, raisin' the son like baby yoda  
Raisin' the lightsaber sword up make em gaze at the glow up  
Takin' the L7 squad up we've been waiting to show up  
Now hold up, I plant the seed and it breed roots  
And I'm clean as James Carter in a cheap suit  
I don't need no one to look, I don't need proof  
I'm gettin' money off the books like I'm Dean Koontz  
Shh! Don't say a thing. this A Quiet Place  
Hook up at the Hyatt, have her handin' notes Mariah make  
From the window, to the wall, to the fireplace  
Then hyperspeed out of place soon as I awake

Gettin' money from the front to the back end  
Run and bring the bag in 'til the bag end  
Get it goin' ain't no slowin' ain't no laggin'  
Girl we up to no good, bring that ass  
Bring yo' bad friend, bring yo' bad friend  
Bring yo' bad friend, bring yo' bad friend  
Said we up to no good, bring that ass in  
And bring yo bad friend, bring yo bad friend
