Fue como candela
Fue como candela
Fue como candela

Fue como candela

Alive in the morning I wake and bake
Drop the hook ann make em' take the bait
Off the top, got atomic drops
Like I'm Jake the Snake, no more takin' breaks
Cuz when I started, had a bigger heart and
Went Uncharted you can call me Nathan Drake
The transformation that it made me make
What a great escape, let me meditate
(Woo!) Light up my J ya'll (yeah!) Flyin' prior to takeoff
I thought I might take me a day off. I go higher like H.R
Infrared on the Radar. I'm a take the shot, just say when
I hit a block then get hella bars, turn the booth into the state pen
Til' the crib look Amazin'
Big enough to put a Maze in
Wit' 7 cars on the pavement
And never makin' no payments
Drinks on me at the River Vista
Spinning dough like it's a pizza
Gettin' guap off a pop feature
Then I hit the block and just drop heaters
New homes, new whips, yuh!
New zones, new trips, yuh
Knew me, know you didn't. No
New Phone, Who Dis? Woah
Bout to go places I never been
Bout to see things I would never think
Bout to live life I would never dream
All of these scenes that I never seen
