

## Looking for a Star

XXXTentacion

Can't seem to explain a thing  
Going on in my head (on in my head)  
The memories seem to fade away  
With the thoughts in my head (the thoughts in my head)  
Run from different enemies  
And the thoughts in my head (the thoughts in my head)  
Run from different enemies  
And the thoughts in my head (the thoughts, in my)  
And where did you go as I slipped? (as I slipped)  
I can't seem to get out my head (out my head)  
I went and I'll count the tears I shed (tears I shed, tears I)  
She sat there and watched as I bled  
As I bled  
As I bled  
As I bled  
As I bled  
As I bled  
And where did you go as I slipped (as I slipped)  
I can't seem to get out my head (out my head)  
And where did you go as I slipped (as I slipped)  
I can't seem to get out my head (out my head)
