

# Alive

XYLØ

Wake up 'cause I'm on my way  
2 AM in the cab and it's only Monday  
And the driver knows my name  
Yeah, I hope that I am on your mind  
My head's out the window tonight  
Staying up till the club shut down  
Yeah, I work too much so I had to get out  
Tell me where you wanna go  
Back to your place, I don't mind  
My head's out the window tonight

I don't wanna go home  
Let's go somewhere we've not been before  
We could get high on the beach  
Or fly to London or Tokyo  
I come alive when we're together  
I'm alive, I'm alive  
I come alive when we're together  
I'm alive, I'm alive  
I come alive when we're together  
(I'm alive, I'm alive)  
I come alive when we're together  
(I'm alive, I'm alive)  
I come alive when we're together

And you look so good right now  
At a secret place that we go to downtown  
You're the one that I won't let go  
It feels so wrong, but it's so right  
My head's out the window tonight

I don't wanna go home  
Let's go somewhere we've not been before  
We could get high on the beach  
Or fly to London or Tokyo  
I come alive when we're together  
I'm alive, I'm alive  
I come alive when we're together  
I'm alive, I'm alive  
I come alive when we're together  
(I'm alive, I'm alive)  
I come alive when we're together  
(I'm alive, I'm alive)  
I come alive when we're together

I don't wanna go home  
Let's go somewhere we've not been before  
We could get high on the beach  
Or fly to London or Tokyo  
I come alive when we're together  
I'm alive, I'm alive  
I come alive when we're together  
I'm alive, I'm alive  
I come alive when we're together  
(I'm alive, I'm alive)  
I come alive when we're together  
(I'm alive, I'm alive)

I come alive when we're together

...
