

don't let them change you babygirl

XYLØ

Loudmouth
Rock and roll
Smoking with the boys before school
You were, you were in control
And if it felt nice
You wouldn't think twice

But a couple trips
Around the sun
Your body don't look the same anymore
And I wish I could tell you

Don't let them
Don't let them change you
Don't let them change you, baby girl
'Cause you know there's no one like you
In this big bad world
Don't listen to them
Just look at this place
You'll never be free
In the USA
So come out tonight
And dance with me
'Cause you're right where
You're meant to be

Different name on your fake ID
You knew yourself better then, ironically
You spoke your mind
'Cause it ain't that deep
But now you take this stupid life so seriously

And a couple trips around the sun
Your mind, it don't think the same anymore
And I wish I could tell you

Don't let them
Don't let them change you
Don't let them change you, baby girl
'Cause you know there's no one like you
In this big bad world
Don't listen to them
Just look at this place
You'll never be free
In the USA
So come out tonight
And dance with me
'Cause you're right where
You're meant to be

Don't let them
Don't let them change you
Don't let them change you, baby girl
'Cause you know there's no one like you
In this big bad world
Don't listen to them
Just look at this place

You'll never be free
Anyway
So come out tonight
And dance with me
'Cause I'm right where
'Cause I'm right where I'm meant to be
