

You said you're coming home  
But I know that you won't  
I still saved you a seat  
Right next to me

Like I always do  
Like I always do

When I think of you  
It feels like nothing never changed  
You're playing jazz on the radio  
In that green Mercedes on the 101  
I sing because of you  
But you will never hear this song  
So I hold onto every word you said  
Like you hand in mine is all I've got left

You said you're coming home  
But I know that you won't  
I still saved you a seat  
Right next to me (One, two)

Like I always do  
(Like I always, like I always, like I always)  
Like I always do  
(Like I always, like I always  
Like I always, like I always)

Some days I've cried and the next I'm fine  
(Like I always, like I always)  
Oh, lefty I miss you (Like I always, like I always)  
Some days I've cried and the next I'm fine  
(Like I always, like I always)

And when I think of you  
It feels like nothing ever changed at all

You said you're coming home  
And I guess in some way you are  
And there's an empty seat  
Right next to me  
And I saved it for you

(Like I always, like I always, like I always)  
Like I always do  
(Like I always, like I always  
Like I always, like I always)

Some days I've cried and the next I'm fine  
(Like I always, like I always)  
Oh, lefty I miss you (Oh, lefty I miss you)  
Some days I've cried and the next I'm fine  
(Like I always, like I always  
Like I always, like I always)  
Some days I've cried and the next I'm fine  
(Like I always, like I always)  
Oh, lefty I miss you (Oh, lefty I miss you)

Some days I've cried and the next I'm fine  
(Like I always, like I always  
Like I always, like I always)

You said you're coming home  
But I know that you won't  
I still saved you a seat  
Right next to me  
Goodbye, get lost
