Masterpiece

XYLØ

He found paradise in America
He liked the song in the winter and he liked me
And when we get lost in translation
He just listens to the sound of the way I speak

There's nobody
There's nobody that
There's nobody that loves me like

There's nobody, nobody that loves me like he can
I don't need him but I want him more than y'all understand
He's raw, he's flawed, he's incomplete
He's my masterpiece

Driving in the car headed somewhere
We can talk, we can fight, it's okay with me

There's nobody
Tonight, at least
There's nobody that loves me like

What we got is deeper than the ocean
'Cause we know things that no one knows
Well I hope they don't
(Well I hope they don't)

There's nobody, nobody that loves me like he can
I don't need him but I want him more than y'all understand
He completes me, he's incomplete
He's my masterpiece
(There's nobody, nobody that loves me like he can)
(There's nobody, nobody that loves me like he can)

He found paradise in America
He likes the song in the winter but he loves me
