

## Never Too Late

XYZ

how can i see without a light  
when my dreams are dead and gone  
when my love is over and done  
how can i fight the pain inside  
if much more is yet to come  
as eternity goes on without love  
babe. woman find a needy way to break it up  
and say goodbye  
tonight, no more once upon a time  
forget you cried  
never too late...  
i used to read into your eyes  
that over clouds of time  
it would be just you and i  
so don't let it go. don't let it die  
and before you seal your mind  
just remember. remember you're mine  
and only mine.  
babe. woman find a needy way to break it up  
and say goodbye  
tonight, no more once upon a time  
forget you cried  
never too late...  
tonight let's give our love another try.  
one more try!  
never too late...
