

## Wanted

Xzibit

You wanna approach me?  
Use the right protocol!  
I put you to sleep like you OD'ed on Propofol  
Bitches have so much gall  
Now your falls coming soon  
Another rapper, a tomb  
Glass case, shell, doom!  
You are now in tune to the greatest, the latest the waited  
Diamond 'n glo, slayed it, created, they hit you brainless  
You wanted me to say it  
OK, it couldn't be said better!  
Inspirational message and letters from go-getters  
We decide whether or not we're blowing up spots  
As lethal as a champion of 'King of the Dot'  
Loaded and locked, exploded and rocked  
Corroded your block, you drove in a shot!  
The more than the prop, tied you a knot  
Time on the clock, stop!  
Like the stop watch cause we're top show  
Like Kobe in his prime, define top notch!  
Kick you in the crotch with a cheap shot  
But I think not!  
What you gonna do when the fucking beat stops?

There he go (get 'em!)  
There he go (get 'em!)  
There he go (get 'em!)  
And anybody that's with 'em! (hit 'em!)  
There he go (get 'em!)  
There he go (get 'em!)  
There he go (get 'em!)  
And anybody that's with 'em! (hit 'em!)

Haters want my life, (yeah!)  
Catch me if you can! (if you can!)  
Catch me if you can! (if you can!)  
Catch me if you can! (if you can!)  
I'm a wanted man  
So catch me if you can!

Cause for that stash  
I keep in that coffee can under my bed  
Shit could get sacrilegious  
And I lay bitches flat ray backs like practicious  
A man that lacks vision is prone to make bad decisions  
All I had was ambition and a mission to get out of this position  
I was raised, but wasn't nobody listening  
To shit I had to say, respect was only paid  
If you're balling like Battier  
So put that glove and bat away!  
In exchange for a gun, son, point it that-a-way  
Let it spray what a great way to fuck up my Saturday!  
Way too young to have a drink  
Way too young to have to think  
Rolling 'round on half a tank  
It's my uncles I had to thank!

It was them we emulate and imitate  
So I'm at this 7-11 with a.357 and pale face  
Let's do this beer run  
Hurry up 'fore they hear something!

There he go (get 'em!)  
There he go (get 'em!)  
There he go (get 'em!)  
And anybody that's with 'em! (hit 'em!)  
There he go (get 'em!)  
There he go (get 'em!)  
There he go (get 'em!)  
And anybody that's with 'em! (hit 'em!)

I'm a wanted man  
So catch me if you can!

I decapitate my enemies  
Know I get paid for most of 'em  
Hesitation and patience, I'm running out of both of them  
Set sail, smash the champagne on the side of it  
I'll Titanic you niggas  
Iceberg, I hit you with the Mossberg  
Sawed off nicely, in a white T  
Point blank range, politely squeeze, this excites me!  
I'mma live by the bullet 'til it bites me  
I'm doing life, how come momma never writes me?  
These real keys take time, so meticulous  
Thinking at thieves, intelligence feed  
My agenda is the flashback coast what's stress from the PTS  
Fuck what you're saying, motherfucker  
Say it with your chest!  
You're being held for ransom  
Citizens, our demand's a hundred million untraceable euros wrapped in plastic bags  
Cause you're playing with your life  
If you think I'm thinking twice  
Now you walkin' to the light!

There he go (get 'em!)  
There he go (get 'em!)  
There he go (get 'em!)
