

A call away

Yang Da II

Do you need to call
To say just what you want from me
I'm here for you, stop acting like you're tough
Breaking down a fall
Crazy how it sounds like
You've been waiting for somebody to let you know

You're doing alright
I know that you're well on your way
At times there'll be some guys
That just won't understand
I don't know how to light the moods
Between your days
I promise you that when you're with me
Some things might change

So tell me if we're in
Tune with our emotions
So tell me if we're sound
Then I'll be there for you
A bottle of cheap wine
With a patio outside
In the middle of an empty store
Spending time just talking more
Singing 'Valentine'
Trying to slow down time
We don't need to say a word
Just walk this road we've made to the stars

They don't understand the way we walk
My feelings for you now, it's blooming up
So let me know how we're doing
If there's more that I can do
We're doing alright
We know that we're well on our way
At times there'll be people
That just won't understand
Now that I know we light our moods
Between our days
I promise you that when you're with me
Some things will change

So tell me if we're in
Tune with our emotions
So tell me if we're sound
Then I'll be there for you
A bottle of cheap wine
With a patio outside
In the middle of an empty store
Spending time just talking more
Singing 'Valentine'
Trying to slow down time
We don't need to say a word
Just walk this road we've made to the stars

Take your time
Take your time

To finally get to know
Take your time
'Cause I'm taking my time
To finally get to know you

Take your time
Take your time
To finally get to know
Take your time
'Cause I'm taking my time
To finally get to know you
