

It's amazing  
How we could never  
Be on the same page  
We couldn't make time  
I'm sure we loved  
Plenty enough, and that's why it hurt more

You said that I am the only one that  
Made you smile more than ten times  
I wonder if you still  
Laugh and cry for someone else

Remember when we kicked it back at  
The studio in the old town  
A place where only we know  
I still miss it time to time

I know you might not remember  
You gave your best but I fumbled  
I know that it was more than a fling

It's amazing  
How we could never  
Be on the same page  
Maybe it's my fault  
Acting my age  
I couldn't tell then that you were my world

It's amazing  
How I could hold in  
My feelings in place  
Maybe it's my fault  
Acting my age  
I didn't know then just how much that I love you so

Couldn't count all the nights  
We ended fighting like we knew  
Breaking off you  
Had my feelings come through  
But I didn't know that you'd end up going  
Off alone  
And I'm drowning  
Nowhere to go  
Now I just wanna be with you

It's amazing  
How we could never  
Be on the same page  
Maybe it's my fault  
Acting my age  
I couldn't tell then that you were my world

It's amazing  
How I could hold in  
My feelings in place  
Maybe it's my fault  
Acting my age

I didn't know then just how much that I love you so

How can I go on  
Can't love someone not named her  
Can I see you one time  
Let me take you out a day  
I know you don't wanna hear  
But can I take a minute, say  
Can we  
Say our very last goodbyes

It's amazing  
How we could never  
Be on the same page  
Maybe it's my fault  
Acting my age  
I couldn't tell then that you were my world

It's amazing  
How I could hold in  
My feelings in place  
Maybe it's my fault  
Acting my age  
I didn't know then just how much that I love you so
