

SUPPORT MY VISION

YBN Almighty Jay

I got love for my niggas
In the car with 2 killers
They wasn't on a date but it felt like I was 3rd wheeling
I got love for my family
I know sometimes they don't feel it
Everybody got they handout but they didn't support my vision
They didn't support my vision
They didn't support my vision
Woah

All by myself I'm in LA alone
I thought my hood turned they back on me
Then I dropped 'Rich in the Hood' that was they favorite song
Right is right and wrong is wrong 'Battling My Spirit' came from the heart
Night time sessions
It was just me and Lil Jay alone
You didn't think to call my phone
You just assumed I was straight
They didn't wanna feed me nun they took food off my plate
I feed em they came back for more
They just assumed I ate
I be going through shit like you
I just never lost faith
It hurt my heart mama called my phone and told me my brother cried to her
Told her I'll be home in a week but damn I lied to her
Niggas will hate on you but be a fan look what your pride doing
I make music for niggas that go through pain so they can ride to it
Nobody respect my hustle
Everything I got I worked for this shit
Bitches will stunt on you when you don't got nun when you on they'll jump on
your dick
I went from juvenile darkness to B.E.T. carpets
I had to turn up and get lit
I gave my love to a bitch
Whole time she wasn't shit I figured that I gotta quit
They didn't know I damn near lost it all
My fans gave another chance
I had to separate myself to become a better man
Niggas be in competition with they own bruddas
I don't understand
I used to be the most underrated now the world understand
I release my stress
I learned to put it in my music
You used to be my brudda know it's fucked up we into it
You started throwing up them other signs bro what you doing
Once you cross over to the other side ain't no renewing

I got love for my niggas
In the car with 2 killers
They wasn't on a date but it felt like I was 3rd wheeling
I got love for my family
I know sometimes they don't feel it
Everybody got they handout but they didn't support my vision
They didn't support my vision
They didn't support my vision
Woah
