

Kill Nobody

YCEE

I might not kill nobody
But am gonna cause a little havoc
'Cus am about to dance my life away to this
I don't wanna hurt nobody

I ain't tryna be violent
Keep it on a low be silent
Omo mhen you know we stay stylish
Man left the bank still smiling
And you know that I bees in a trap
It's heat when I rap
Ain't no other competing with that
And all of them boiz never been in a verse
Where they keep on a low and they diss from the back
I might not kill nobody but you know say I dey hold my own
So baby don't go through my phone
Before I put your ass up in that throwback zone (yeah yeah)
I might not hurt nobody so miss me with that demon crap
New wave man me I be's on that
Hala at [?]

I might not kill nobody
But am gonna cause a little havoc
'Cus am about to dance my life away to this

And girl you know I go so daum deep
So let me put you all up on this romantic
Yea, I might not kill nobody

Man is tryna kill my vibe
They don't want me doing no right
