

# First Night Back In Port

## Ye Banished Privateers

Every tavern in this town, every rathole, every bar  
Prepare for being boarded cause we're back from naval war  
Crack open every barrel, let the wine and whiskey free  
Let's drink for all the maties that we lost out there at sea

Hear the clapping of the gang plank as it reaches for the pier  
And eighteen hundred sea legs disembark from the frontier  
Every man and every woman, every lad and every lass  
Drag your tails down to the dockside if you want some piece of ass

It's our first night back in port

Let's drink, let's fight  
Let's fornicate by the harbour lights  
Let's fuck, let's bite  
Let's dance away the night

Let's drink, let's fight  
Let's fornicate by the harbour lights  
Let's fuck, let's bite  
Let's dance away the night

Wet the oars and climb the mast, and weigh anchor in my bay  
I don't mind being sunk, so I drive into the fray  
Stick the hose pipe in the bilge, man the pumps I'm set to blow  
And judging by the itch there's a fire down below

Hoist your flag and ride the storm until the sails are hanging loose  
Feast upon the oysters, stretch your neck into the noose  
Dock your schooner in my port, ram your ship into the docks  
Dance your peg leg on my poop deck, unleash the cunts and cocks

It's our first night back in port

Let's drink, let's fight  
Let's fornicate by the harbour lights  
Let's fuck, let's bite  
Let's dance away the night

Let's drink, let's fight  
Let's fornicate by the harbour lights  
Let's fuck, let's bite  
Let's dance away the night

Let's drink, let's fight  
Let's fornicate by the harbour night  
Let's fuck, let's bite  
Let's drink, let's fight  
Let's fuck, let's bite

Drink, fight  
Fornicate by the harbour lights  
Let's fuck, let's bite  
Dance away the night

Let's drink, let's fight  
Let's fornicate by the harbour lights

Let's fuck, let's bite  
Let's dance away the night

Let's drink, let's fight  
Let's fornicate by the harbour lights  
Let's fuck, let's bite  
Let's dance away the night

Let's drink, let's fight  
Let's fornicate by the harbour lights  
Let's fuck, let's bite  
Let's dance away the night

Fuck!
