Fall in hands

Feel you holding us up

```
I, I, I, I You
I, I, I, I You, You
What's he gonna
What's he gonna
What's he gonna get
So long you'll never be afraid
What's he gonna
What's he gonna
What's he gonna get
So long you'll never be the same
What's he gonna
What's he gonna
What's he gonna get
So long youll never be afraid
What's he gonna
What's he gonna
What's he gonna get, get
So long you'll never be the same
Turn your head look right out
None of these faces matter
These are the ones you see right through
If it's gonna be it's all it's gonna be with you
I, I, I, I You
I, I, I, I You, You
I, I, I, I You
I, I, I, I You, You
Who knows where we are
All eyes alone
Tangled onto arms
Two arms are one
Aslong as were young
Keep you always in love
Fall in hands
Feel you holding us up
Aslong as were young
Keep you always in love
Fall in hands
Feel you holding us up
Aslong as were young
Keep you always in love
```

Crying for you Crying for you
